

EMERGENCY REPORT FOR INCIDENTS

to help you remember and document details

If there is an incident where your dog growls, snaps or bites your child, it is incredibly important to gather the details of the incident as soon as possible, before they start to fade. **Seeking immediate medical care is the priority**, but second to that is **taking pictures of injuries right away** and completing the details on this form.

INCIDENT DETAILS

Name and age of victim: _____

Dog's name, age, sex, breed, weight: _____

Date/Time: _____

Address: _____
